

Art & Design

2nd-3rd Grade, Week of: July 22nd, 2024

What We Did on...Monday: SUMMER BEACH DAYS

Seashell Identification Cards

- We learned about how seashells are homes to many animals and are very important to our oceans! Then, we learned how to identify types of seashells by making cardboard cards.

Paperclip Jellyfish

- Jellyfish may sting, but they are awesome to learn about! We learned many fun facts about jellyfish, then made our own with paperclip tentacles!

Sand Art

- Sand does way more than we could have expected! We learned all about sand's role in the environment, then made art out of glue and sand.

Ocean Wave Painting

- Where do waves come from? We learned that they come from the wind and the tides! Then, we painted the pretty waves we see all the time.

Sunshine Cloud Plate

- We learned all about how clouds form and the things that impact what they look like! Then, we made our very own clouds out of cotton balls on a plate that we turned into sunshine.

Art & Design

2nd-3rd Grade, Week of: July 22nd, 2024

What We Did on...Tuesday: SUMMER OUTDOORS

Pinwheels

- We learned about the fascinating history behind the good fortune pinwheels bring, then put our origami skills to the test by making our own!

Sun Prints

- We learned about ultraviolet rays, then used our new knowledge to use sun paper to make sun prints from items in nature!

Chromatography Butterflies

- Chromatography is one of the prettiest types of science! We learned about the basics of how it works through capillary action, then made beautiful butterflies!

Wooden Sailboats

- Using the saw, drill, and hot glue, we worked together to craft beautiful wooden sailboats that use the properties of lift and drag to float!

Tie Dye

- What would art & design camp be without some special shirts? We used our art skills to tie dye our camp souvenirs!

Ocean on a Plate

- We learned about the ecosystems in the ocean, then crafted our very own on a plate!

Art & Design

2nd-3rd Grade, Week of: July 22nd, 2024

What We Did on...Wednesday: SUMMER ACTIVITIES

Decorating Sailboats

- We took the amazing sailboats we made yesterday and added personalized sails as well as decorating and naming them to fit the designs!

Surfboards

- We learned about the fascinating history of surfing, and then used this knowledge to create our own floating surfboards that look as good as real ones!

Mini Campsites

- After making our own spooky campfire ghost stories, we made our own mini campsites to tell the stories in!

Bird Feeders

- Once we learned that the pros of bird feeders outweigh the cons, we made our own to feed the birds in their habitat!

Pressed Flower Bookmarks

- Did you know pressing flowers was created in Japan all the way back in the 16th century? We used these pressed flowers to make our very own bookmarks!

Art & Design

2nd-3rd Grade, Week of: July 22nd, 2024

What We Did on...Thursday: SUMMER FRIENDS

Oaxaca Animal Styles

- We learned about the history of Oaxaca animals and their symbolism for good luck! Then, we tried to make our very own to bring us good fortune.

Making Friendship Bracelets

- At camp, we are all friends! We learned about the history of friendship bracelets, then made our own to commemorate our new friends.

Paper Bag Mermaids

- Mermaids have evolved so much since the first story of Atagartis! We learned about this fascinating history, then made our own mermaid friends out of a paper bag.

Swirling Ladybugs

- Did you know ladybugs are an integral part of our ecosystem? We learned all about their role, then made our own that swirled around!

Artsy Snakes

- Snakes can seem scary, but have been used to symbolize so many good things throughout history! We learned about this history, then made some snakes hiding in the grass out of decorative paper.

What We Did on...Friday: SUMMER TREATS

Art & Design

2nd-3rd Grade, Week of: July 22nd, 2024

Ice Cream in a Bag

- We mixed art and science to make ice cream in a bag using an exothermic reaction! Yummy!

Lemonade

- After decorating our very own cups, we made the most delicious summer treat! We added some fun flavoring drops to see what kind of creations we could make.

Rice Krispie Treat Beaches

- We took our creativity to the max to make cute beaches out of rice krispie treats, ice cream, and teddy grahams.

Puffy Paint Ice Cream Cones

- We made our own puffy paint with a 50/50 ratio of glue and shaving cream. Then, we took our puffy paint and used it to model big ice cream scoops!

Beach Cupcakes

- We took mini cupcakes and made them into a little beach scenery! We added brown sugar to model sand, then placed little umbrellas and made other decorations.
